Sitewide Fixes

Bing crawl access and sitemap discovery fails Bing Webmaster Guidelines

SEO / Critical / 256 pages

Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.

IMPACT

Bing relies on crawl access and discovery signals, and its index can influence Copilot and grounding experiences.

URLS

https://bradleymatera.dev/
https://bradleymatera.dev/tags/pricing/
https://bradleymatera.dev/tags/seo/
https://bradleymatera.dev/tags/service-area/
https://bradleymatera.dev/tags/web-design/
https://bradleymatera.dev/seo-rockford-il-a-local-business-guide-to-actually-ranking/
https://bradleymatera.dev/service-area-business-seo-no-storefront/
https://bradleymatera.dev/contact-form-friction-checklist/

Google crawl, index, and serving access fails Google Search Essentials

SEO / Critical / 1 pages

Allow Googlebot, remove accidental noindex/nosnippet directives, and use a self-referencing canonical unless another page should rank.

IMPACT

Google Search needs accessible, indexable pages before content or schema quality can matter.

URLS

<https://bradleymatera.dev/purchases/>

Indexing is blocked

Technical / Critical / 1 pages

Remove noindex from pages that should appear in search or AI answer results.

IMPACT

Search engines and answer systems cannot surface pages that are excluded from indexing.

URLS

<https://bradleymatera.dev/purchases/>

Text contrast must meet AA minimums

Accessibility / Critical / 1 pages

Adjust foreground or background colors so normal text reaches 4.5:1 and large/bold text reaches 3:1.

IMPACT

Perceivable accessibility barrier affecting WCAG conformance and ADA readiness.

URLS

<https://bradleymatera.dev/demos/agriculture/>

Claims need stronger evidence

GEO / Warning / 178 pages

Support numbers, dates, superlatives, outcome promises, and trust claims with proof or source links.

IMPACT

Evidence-backed claims improve generative citation readiness and reduce hallucination risk.

URLS

<https://bradleymatera.dev/>,
<https://bradleymatera.dev/tags/pricing/>,
<https://bradleymatera.dev/tags/seo/>,
<https://bradleymatera.dev/tags/service-area/>,
<https://bradleymatera.dev/tags/web-design/>,

<https://bradleymatera.dev/contact-form-friction-checklist/>

Meta description needs work

SEO / Warning / 8 pages

Write a 110-170 character description that summarizes the page and includes the main user intent.

IMPACT

Better descriptions can improve snippet clarity and click intent.

URLS

<https://bradleymatera.dev/demos/agriculture/>,
<https://bradleymatera.dev/demos/auto-repair/>,
<https://bradleymatera.dev/demos/beauty-salon/>,
<https://bradleymatera.dev/demos/hvac/>,
<https://bradleymatera.dev/demos/landscaping/>,
<https://bradleymatera.dev/demos/manufacturing/>,
<https://bradleymatera.dev/demos/real-estate/>,
<https://bradleymatera.dev/demos/restaurant/>

Text contrast does not meet AAA enhanced target

Accessibility / Warning / 1 pages

For AAA readiness, increase contrast to 7:1 for normal text and 4.5:1 for large/bold text.

IMPACT

Perceivable accessibility barrier affecting WCAG conformance and ADA readiness.

URLS

<https://bradleymatera.dev/demos/agriculture/>

Helpful people-first content depth fails Google helpful content guidance

SEO / Opportunity / 188 pages

Add specific service detail, examples, proof, process notes, and direct answers instead of thin or generic marketing copy.

IMPACT

People-first pages explain the topic clearly, add original value, and avoid unsupported search-first claims.

URLS

<https://bradleymatera.dev/>,
<https://bradleymatera.dev/tags/pricing/>,
<https://bradleymatera.dev/tags/seo/>,
<https://bradleymatera.dev/tags/service-area/>,
<https://bradleymatera.dev/tags/web-design/>,
<https://bradleymatera.dev/seo-rockford-il-a-local-business-guide-to-actually-ranking/>, <https://bradleymatera.dev/service-area-business-seo-no-storefront/>,
<https://bradleymatera.dev/contact-form-friction-checklist/>

Citation, proof, and attribution readiness fails AI citation and grounding readiness heuristic

GEO / Opportunity / 178 pages

Add author/publisher details, case studies, reviews, citations, dates, and source links near factual or outcome claims.

IMPACT

AI answers are more useful when claims have nearby proof, source links, dates, and accountable authorship or publisher context.

URLS

<https://bradleymatera.dev/>,
<https://bradleymatera.dev/tags/pricing/>,
<https://bradleymatera.dev/tags/seo/>,
<https://bradleymatera.dev/tags/service-area/>,
<https://bradleymatera.dev/tags/web-design/>,
<https://bradleymatera.dev/seo-rockford-il-a-local-business-guide-to-actually-ranking/>, <https://bradleymatera.dev/service-area-business-seo-no-storefront/>,
<https://bradleymatera.dev/contact-form-friction-checklist/>

Extractable lists, steps, and comparisons fails Answer extraction heuristic from SERP and AI answer formats

AEO / Opportunity / 22 pages

Turn process, benefits, requirements, pricing, and comparisons into bullets, ordered steps, or real HTML tables.

IMPACT

Lists, steps, and tables are easier for answer systems to summarize accurately than long undifferentiated prose.

URLS

<https://bradleymatera.dev/why-visitors-leave-local-business-website/>, <https://bradleymatera.dev/what-five-page-website-should-include/>, <https://bradleymatera.dev/website-redesign-checklist/>, <https://bradleymatera.dev/review-testimonial-placement/>, <https://bradleymatera.dev/local-landing-pages-without-doorway-spam/>, <https://bradleymatera.dev/website->

[accessibility-basics/](#), <https://bradleymatera.dev/before-after-teardown-measurable-changes/>,
<https://bradleymatera.dev/gatsby-nav-bar-haunted/>

No comparison table detected

AEO / Opportunity / 22 pages

Add a compact comparison or summary table where users need to compare options, prices, features, or timelines.

IMPACT

Tables help answer engines extract comparative answers.

URLS

<https://bradleymatera.dev/why-visitors-leave-local-business-website/>, <https://bradleymatera.dev/what-five-page-website-should-include/>, <https://bradleymatera.dev/website-redesign-checklist/>, <https://bradleymatera.dev/review-testimonial-placement/>, <https://bradleymatera.dev/local-landing-pages-without-doorway-spam/>, <https://bradleymatera.dev/website-accessibility-basics/>, <https://bradleymatera.dev/before-after-teardown-measurable-changes/>,
<https://bradleymatera.dev/gatsby-nav-bar-haunted/>

Question coverage is thin

AEO / Opportunity / 2 pages

Add natural-language question headings that match how users ask for answers.

IMPACT

Question-led sections help answer engines map queries to page passages.

URLS

<https://bradleymatera.dev/image-credits/>,
<https://bradleymatera.dev/blog/>

Repeated Authority Gaps

Bing crawl access and sitemap discovery

SEO / Bing Webmaster Guidelines / 267 pages

Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.

Question-to-answer extraction

AEO / Answer extraction heuristic from Google and AI retrieval behavior / 2 pages

Place 40-70 word direct answers under natural question headings for pricing, process, fit, timing, comparison, and next steps.

<https://bradleymatera.dev/image-credits/>, <https://bradleymatera.dev/blog/>

Readable retrieval chunks

AEO / Information retrieval best practice / 1 pages

Use descriptive H2/H3 sections, keep paragraphs focused, and split mixed-topic copy into separate answer blocks.

<https://bradleymatera.dev/store>

Google crawl, index, and serving access

SEO / Google Search Essentials / 1 pages

Allow Googlebot, remove accidental noindex/nosnippet directives, and use a self-referencing canonical unless another page should rank.

WCAG And ADA Site Summary

- Conformance rule: A checks only A criteria. AA includes A and AA criteria. AAA includes A, AA, and AAA criteria. A lower-level failure makes higher levels fail too.
- WCAG A site status: Compliant
- WCAG AA site status: Not compliant
- WCAG AAA site status: Not compliant
- ADA site status: At risk
- Accessibility sitewide issues: 2
- This tool provides technical ADA readiness triage, not legal certification. Validate high-risk flows in the rendered experience before making legal claims.

META DESCRIPTION

Website repair and troubleshooting for small businesses. Fix broken pages, forms, layouts, and errors. \$65/hour or a full \$597 site refresh. Fast turnaround.

SCHEMA

Person, WebSite, WebPage, Service, City, AdministrativeArea, Offer, FAQPage, Question, Answer, BreadcrumbList, ListItem

Page Fixes

- Bing crawl access and sitemap discovery fails Bing Webmaster Guidelines: Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.
- Claims need stronger evidence: Support numbers, dates, superlatives, outcome promises, and trust claims with proof or source links.
- Citation, proof, and attribution readiness fails AI citation and grounding readiness heuristic: Add author/publisher details, case studies, reviews, citations, dates, and source links near factual or outcome claims.
- Helpful people-first content depth fails Google helpful content guidance: Add specific service detail, examples, proof, process notes, and direct answers instead of thin or generic marketing copy.

Failed Authority Checks

- SEO - Helpful people-first content depth: Add specific service detail, examples, proof, process notes, and direct answers instead of thin or generic marketing copy.
- SEO - Bing crawl access and sitemap discovery: Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.
- GEO - Citation, proof, and attribution readiness: Add author/publisher details, case studies, reviews, citations, dates, and source links near factual or outcome claims.

TITLE

Website Design in Clinton, Wisconsin | Web Developer Bradley Matera | Small Business Web Design in Northwest Illinois | Bradley Matera

META DESCRIPTION

Clinton website design and web developer — transparent pricing from \$447, WCAG-compliant builds, local SEO, and site repair. 40 minutes from Durand.

SCHEMA

Person, WebSite, WebPage, BreadcrumbList, ListItem, Service, City, AdministrativeArea, ProfessionalService

Page Fixes

- Bing crawl access and sitemap discovery fails Bing Webmaster Guidelines: Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.
- Claims need stronger evidence: Support numbers, dates, superlatives, outcome promises, and trust claims with proof or source links.
- Citation, proof, and attribution readiness fails AI citation and grounding readiness heuristic: Add author/publisher details, case studies, reviews, citations, dates, and source links near factual or outcome claims.
- Helpful people-first content depth fails Google helpful content guidance: Add specific service detail, examples, proof, process notes, and direct answers instead of thin or generic marketing copy.

Failed Authority Checks

- SEO - Helpful people-first content depth: Add specific service detail, examples, proof, process notes, and direct answers instead of thin or generic marketing copy.
- SEO - Bing crawl access and sitemap discovery: Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.
- GEO - Citation, proof, and attribution readiness: Add author/publisher details, case studies, reviews, citations, dates, and source links near factual or outcome claims.

SCHEMA Person, WebSite, WebPage, BlogPosting, BreadcrumbList, ListItem, Article	

Page Fixes

- Bing crawl access and sitemap discovery fails Bing Webmaster Guidelines: Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.

Failed Authority Checks

- SEO - Bing crawl access and sitemap discovery: Allow Bingbot, publish a clean XML sitemap, list it in robots.txt, and submit it in Bing Webmaster Tools.

Failed WCAG Criteria

- No failed WCAG criteria detected.

Failed Pages

No pages failed during crawl.

Methodology

- Full-site audits discover sitemap URLs first, then keep expanding the same-origin link queue from audited pages.
- Audits run in serverless-safe batches with browser-side progress tracking so large crawls can continue beyond a single request timeout.
- Each crawled URL receives the same SEO, AEO, GEO, WCAG, ADA-readiness, access, schema, entity, answerability, and groundability analysis as a single-page audit.
- Sitewide issues group repeated findings across pages so fixes can be prioritized by blast radius.
- Scores are averages across successfully audited pages; failed pages are listed separately.
- This is not an official accessibility, ADA, legal, ranking, backlink, Search Console, or SERP certification.

Suggested GPT Task

Turn this full-site audit into a prioritized sitewide SEO/AEO/GEO implementation plan. Group fixes into global template changes, homepage changes, service page changes, FAQ/schema changes, accessibility remediation, and content expansion work.
